

How Nick Denton and Gawker Media Got Hired By The White House to try to “erase” me and many other citizens

No, I am not Hulk Hogan, Sarah Palin, Sean Parker, Mitt Romney, Charlie Sheen, Cheryl Attkisson or one of the thousands of celebrities whose lives Gawker has also destroyed for profit. I am just a low-level blue collar worker. I am not affiliated with any political party. I am a taxpaying voter in America that was on a “take-down “ list, produced, I am told (told by CBS News, the FBI, The GAO, Washington Post, numerous Senate senior staff, etc...) by the White House press office.

I had worked on a federal program and was asked by one of the above agencies to testify in the investigation of some corrupt politicians. I answered the questions for the investigators and then went on about my business. I was not in trouble. I was just asked to help out. A Senator, or two, had done some crimes with White House campaign financiers and the three-letter agencies were trying to catch them.

The White House knew this would come back on them after the FBI raid of Solyndra. They did not want anybody to be able to get any air-time, about this story, with the Press so they ordered up some character assassination attacks, known as “hit-jobs”, on about 50 people whose credibility they wanted to evaporate in order to keep them off of the news. The Obama White House really, especially, hates the media but it *super* hates pundits. It wanted all 50 of these regular folks wiped out before they had a chance to hold any “credibility points” in a news interview.

The White House press office always sends out polite little press releases about lighting the National Christmas Tree, saving the Thanksgiving turkey and other low-controversy bits. When Jay Carney, Josh Ernest or Robert Gibbs, in the White House, want to put some nasty news in the papers, they send it over to a guy named Nick Denton. He owns a defamation empire, based on tabloid journalism, called: Gawker Media

To begin to understand the vile lack of morality on display by Mr. Denton, simply type “Gawker Sucks” into duckduckgo.com, reddit.com, voat.co or searx.me

TAKI MAGAZINE published a right-on-the-nose profile of Denton:

“Gawker Media: Hypocrites vs. Douchebanoes, by Matt Forney, For TAKI MAG.com

...In 2002, a failed British journalist named Nick Denton started Gawker, a bitchy gossip blog run out of his Manhattan apartment. Over 10 years later, Gawker and its sister sites have become the biggest names in clickbait “journalism,” pulling down millions of visitors a month and making its owner a millionaire several times over. The secret to Denton’s success? He took the aggressive, lynch mob mentality of British tabloids, which specialize in ruining people’s lives, and injected it into America’s comparatively placid, Oprahfied media market.

In particular, Gawker, Jezebel, Valleywag, and their sister sites specialize in witch hunts: digital vigilantism against those who fail to keep up with leftist orthodoxy. Geoffrey Miller, Pax Dickinson, Justine Tunney, Violentacrez: the list of people whom Gawker has garroted for “racism” or “misogyny” could fill a phone book. With an army of Twitter twits behind it, Gawker Media truly is the moral majority of the left, instigating mob action against those who sin against the religion of tolerance. Gawker’s provocations are even encouraging real-world violence now, as Valleywag’s overfed man-baby of an editor Sam Biddle eggs on

attacks against San Francisco tech workers from the safety of the East Coast.

"Which makes the revelation that Denton has been allowing trolls to terrorize his female employees all the more delicious." For the past few months, 4chan has been engaged in a trolling operation against Jezebel, posting pictures of rape and gore porn in the comments section. Despite the fact that these shocking and disgusting images are stressing out staffers to the point where they're developing PTSD, Denton has steadfastly refused to do anything about the problem. Jezebel's staff recently snapped and posted an open letter on the site demanding that Gawker Media do something, calling 4chan's trolling "a very real and immediate threat to the mental health of Jezebel's staff and readers."

"Fat chance of this happening, however. As others have pointed out, Gawker Media's business model depends on getting clicks; indeed, their writers are paid according to how many page views their articles get. Since comments help drive traffic to websites, fighting 4chan's rape porn trolling will reduce Gawker's profitability. Not only that, Google itself ranks web pages according to how many comments they have, as comments are extremely difficult to fake. Fewer comments means a lower page rank, which translates into less search traffic and less money for Denton to blow on exotic vacations with his boy-toy hubby. If Gawker Media was willing to testify in federal court as to why they should be allowed to rip off their interns, you can bet your bottom peso that they aren't going to do jack about this."

"...And there's the punch line. Gawker Media, the company that gets people fired from their jobs for making "sexist" jokes, has been creating a hostile work environment for its women staffers for months. They're the leftist equivalent of a priest who rails against homosexuality only to be caught molesting altar boys in the confessional booths. In staying silent on this for so long, Dodai Stewart, Lindy West, and Jezebel's other star employees have shown themselves to be frauds. They don't care about feminism, "fat shaming," or whatever cause they're screeching about today; all they care about is money and power. And now we have the proof."

http://takimag.com/article/gawker_media_hypocrites_vs_douchecanoes/

So investigators now know that the White House had its campaign financiers at Google, Kleiner Perkins, Tesla, Solyndra, and other corporate fronts, wire money to Gawker and Nick Denton bank accounts, and bypass tax evasion oversight, in exchange for producing, authoring and publishing hit jobs on people that the White House did not like. White House Press Secretary Robert Gibbs didn't like to get his hands dirty but he loved to dirty up the reputations of others with his push-button defamation system.

In the Article: "Everybody Sucks- Gawker and the rage of the creative underclass" in New York Magazine, investigator [Vanessa Grigoriadis](http://nymag.com/news/features/39319/) (<http://nymag.com/news/features/39319/>) uncovers the warped and twisted world that powers Gawker Media. She describes the rooms full of sexually confused, abused-looking, tattooed 22 year olds, full of rage and hate, that Denton cruises for in Manhattan. Denton seems to hire the most socially disturbed individuals he can find. He then routes their social angst and ennui into the attack articles that he asks them to undertake. Denton's trick is to convince these confused teenagers that his client's enemies are these kids enemies. He uses anger redirection to create his own little army of Denton-ian Hitler Youth.

So Denton/Gawker generate the hatchet job article, carefully reviewed by millions of dollars of lawyers

to make sure that they can use the SLAPP laws and the First Amendment to shock, destroy and “kill” their target with impunity.

That is only the beginning of the attack. The White House likes it's meat fried.

Via pre-coordinated synchronization with Gawker, White House financier and business partner: Google, locks the attacks into the top lines of the front page of every Google search on Earth, FOREVER. If it is a Gawker attack, Google will refuse to remove the links even if you use every legal resource in the book. Google and Gawker are the same bunch of people when it comes to banking and finances. They even send tens of millions of dollars to each other.

Then Google embeds the attack into every background search, HR database and recruiter search system on Earth. You will never get a job again. Google coordinates this with Gawker's servers. For extra fun, Google hides code in the attack links that says that the links are “facts” and not “just opinions”.

In my case, and many others, Gawker, Google and the White House fax and email the attack links to your employer with a message to the effect of: “*look, this guy works for you, You better get rid of him now or else you will get a hit job article on your company.*” You then get frog-marched out of your job, in the middle of the day, with no notice, and no explanation. You, much later, find out it was because your employer was contacted by the hit-jobbers.

Who can you report this too?

The FBI? Not so much, they work for the White House.

The GAO? They have no powers of arrest and are only allowed to write reports.

The OSC? They have no powers of arrest and are only allowed to write reports.

The IRS? Uhm.. Lois Lerner

The U.S. Congress? They only are allowed to have committees to discuss things and have no powers of arrest.

The Attorney General? He is a business partner with the White House and co-invests with those Silicon Valley campaign financiers.

The Auditor General? He is afraid to lose his pension so he stonewalls everything.

The court system? Good luck finding the 4+ years and five million dollars of costs you will need to keep that case going.

Our team talked to over 100 law enforcement agencies and offices. They either reported to the very people we were reporting about, or they didn't want to put their pensions at risk.

So, since, no American citizen has any public policy representative, or law enforcement resource, to stand up for them, who is our new *Great White Hope*?

HULK HOGAN for gods sakes!

He is the only guy in America with the nuts to stand up to these guys.

Isn't America great?
